

Meet the NeighborMood Team

Franco Lam Project Lead

Franco is Dot Dot Fire's Chief Development Officer. His background as a licensed commercial pilot impressed the importance of critical thinking and decision making on him, and he hopes The NeighborMood will encourage kids to make better decisions, both financially and in life.

Hilary Lok Art & Content Lead

Hilary is Dot Dot Fire's Chief Designer. As a woman of color, she's very aware that marketing often targets and exploits those like herself. She hopes The NeighborMood will protect minorities and the underserved by arming them with healthy skepticism.

Edison Chan Programming & QA Lead

Edison, Dot Dot Fire's Chief Engineer, began programming games in middle school and hasn't stopped since. His love for historically-based strategy games turned him into a history buff, and this game-turned-education experience continues to guide his work.

Drew Guthrie Financial Literacy Lead

Drew is FoolProof's Chief Operating Officer and has, prior to that, held various roles in the credit union and banking industry for nearly 15 years. Drew's dedication to furthering financial literacy continues into his volunteer work – teaching Financial Fitness across his county.
